## **DETAILED ACTION**

### ***Response to Arguments***

The restriction dated 31 January 2005 has been deemed improper. As such, the following office action dated 05 April 2005 is to be withdrawn. A new action with a proper restriction is below.

### ***Election/Restrictions***

This application contains claims directed to the following patentably distinct species of the claimed invention:

- I. Claims 5 - 7, 20 - 22, and 34 - 36 are drawn to a first embodiment of a content processing device disclosed in figures 2, 5, 6 and 7.
- II. Claims 8 - 12, 15 - 17, 23 - 26, 29 - 31, 37 - 40 and 43-45 are drawn to a second embodiment of a content processing device disclosed in figures 3, 8 and 9.
- III. Claims 13, 18, 27, 32, 41 and 46 are drawn to a third embodiment of a content processing device disclosed in Fig. 4.

Applicant must select 1 unique species from Groups I, II and III. The selection will be examined in addition to the generic claims, 1 - 4, 14, 19, 28, 33 and 42.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, Claims 1 - 4, 14, 19, 28, 33 and 42 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew C. Flanders whose telephone number is (571) 272-7516. The examiner can normally be reached on M-F 8:30 - 5:00.
